Wayne:

You may have to wait a while before the webpage updates finalize. It should happen today.

Art – I just checked the public webpage and still see the unsigned version of the letter. Can you check?

Yolanda:

I have submitted the attached correct version to replace the current incorrect one, and will let you know when the replacement has been made.

Art,

It has been pointed out to me that the wrong version of this letter is online. I made a mistake and provided you the non-signed version of the letter. Could you replace the letters? Attached is the version signed by Enrique. The current letter is available here (<https://semspub.epa.gov/work/09/100022436.pdf>) under the "Radiological Retesting" special collection.

Thank you,

Yolanda Sanchez | U.S. EPA, Region 9 | Community Involvement for Superfund | Desk: 415-972-3880

Hello, Art!!

Can you please help us add this document to the website? I would like it to be added to the special collections called "Radiological Retesting." We should suggest the records center call it "Ltr: Response to letter re: evaluating radiological remediation goals for buildings. " <= that is similar wording the record center used previously. It should be dated 12/22/2020.

Happiest of holidays to you and your family!
